

Montgomery Botanical Gardens

Presents

A Covid-19 Memorial Luminary Walk

Sunday, December 5, 2021

4:00pm – 6:00pm

What is a Luminary?

A luminary is a light placed inside a container, usually placed along a path, in memory of someone or in recognition of a special event.

The Montgomery Botanical Gardens luminaires will be a symbolic acknowledgement of those who died from Covid-19 (760+) in Montgomery in 2020 and 2021. The opening program will begin at 4:00pm and the walk will open at 4:30pm. Invited guests include Mayor Reed, local Clergy, City Councilors and County Commissioners. All are welcome, especially families and friends of those lost due to Covid-19, to come walk the lighted pathway at MBG in Oak Park to experience a special time of remembrance.

The luminaries will remain from December 5 thru December 8, 2021. MBG is located in Oak Park at 1010 Forest Avenue, 36106 across from Jackson Hospital.

In case of rain the event will be cancelled.

There is no admission charge for this event. Donations to support the gardens are welcome and may be mailed to the address below, or on line at www.montgomerybotanicalgardens.com
